The society carried on operations by the guidance of the executive committee, and instructions we had from our members.

Important events from September 2013-August 2014

SES Mixers were held throughout the year at various establishments throughout the city. The largest event was the Christmas Mixer at Boffins in December. Attendance seemed to be growing at mixers this year. Thanks to Cathy Starkell for organizing the mixers.

Student Paper and Design Competition Night

The *2014 Engineering Innovative Design and Student Paper Competitions* were held at Marquis Hall at the University of Saskatchewan. This event is jointly organized by SES (Saskatoon Engineering Society) and College of Engineering (Univ. of Saskatchewan). Sponsored by SES (Saskatoon Engineering Society), College of Engineering (Univ. of Saskatchewan), Office of the Vice-President Research (University of Saskatchewan) & APEGS. Thanks to Rick Retzlaff for organizing this event again this year.

National Engineering Week

As a part of National Engineering Week, the Saskatoon Engineering Society was proud to host our annual 2014 ICE Event (Industry Celebrating Excellence) at the Saskatoon Club. A special thanks to Cathy Starkell for leading the organization of this event.

Website

The SES website has been regularly updated to help promote upcoming events.

Professional Development Funding

This initiative continued this year. It is a way to help individual members in their professional development. The guidelines were set up so that members could be reimbursed up to \$500 for their continuing education. Although this has not been fully utilized, we hope that additional members can plan to take advantage of this funding.

2014 Awards

- SES Educator of the Year – Chris Zhang
- SES Engineer of the Year – Bert Munro

Members and Executive

The activity that the SES had this year would not be possible without the members that provided input and attended our events. Thanks go to the APEGS staff that support our activities and help notify members of our activities. I thank the members for the opportunity to represent them as President for the past year.

Respectfully Submitted,

Jeremy Nelson, P.Eng.
